

Welcome to Premier Speech Recognition for Macintosh

Welcome to Premier Speech Recognition for Macintosh

MacSpeech Dictate provides a whole new way to interact with your Mac. Instead of typing, use your voice to input text; rather than clicking your mouse, just speak commands. With MacSpeech Dictate, it's easy.

MacSpeech Dictate includes a certified, noise-cancelling microphone headset. Or you can choose from other high-quality microphone options to suit your needs.

MacSpeech Dictate ... Think it. Speak it. Create it.

Amazing Accuracy

Right out of the box, MacSpeech Dictate will astonish you with its accuracy. You simply talk and leave the recognition to MacSpeech Dictate.

Essential Command Capabilities

Instead of using your mouse to select menu commands or your keyboard to type shortcuts, just speak a command. MacSpeech Dictate executes it for you. What could be easier?

Even Greater Recognition

MacSpeech Dictate boasts robust Phrase Training capabilities allowing it to learn as it goes based on your voice input. That means even greater accuracy that more fully integrates into your Macintosh experience.

Built Especially For The Mac

Mac users expect only the best from the applications they use on their Macs. MacSpeech Dictate was built from the ground up to ensure the ultimate experience on Mac OS X.

Comes With Everything You Need

There are no hidden costs. MacSpeech Dictate includes everything you need to be instantly productive as soon as you start using it, including a high quality headset microphone.

Document Freedom

MacSpeech Dictate works great with most any text document, even those created with other applications. The 'Cache Document' and 'Cache Selection' commands let MacSpeech Dictate read a document's contents, or just a selected portion of it, so you can easily navigate and edit existing text.

Exceptional Online Help

For those times when you need a little assistance, MacSpeech Dictate boasts a complete online, searchable help book. It's convenient to use, easy to understand, and all just a mouse click away.

System Requirements

Intel-based Mac

Mac OS X 10.5.2 or greater ("Leopard") or Mac OS X 10.4.11 ("Tiger"). Internet connection required for product registration. Microphone included.

Minimal Training Required

MacSpeech Dictate provides astounding accuracy and productivity. With just minutes of training, you'll be using MacSpeech Dictate's superior capabilities.

Uses the Legendary Dragon Speech Recognition Engine by Nuance

At the core of MacSpeech Dictate is the world-renowned Dragon® speech recognition engine by Nuance. It's the brains and brawn behind MacSpeech Dictate's phenomenal accuracy capabilities.

Spelling A World Of Words

MacSpeech Dictate's spelling mode lets you easily spell words, names, and acronyms with either natural language or the International Radio Alphabet. You have complete control over every aspect of your speech recognition input.

Make Your Move

You don't need a keyboard or mouse to move around in your documents. MacSpeech Dictate lets you move your cursor forwards, backwards, and much more with just your voice. It helps make editing your documents a breeze.

Works With The Apps You Already Have

Microsoft Word, Adobe Photoshop, QuarkXPress, and more. And MacSpeech Dictate works great with Apple's applications as well, including iChat, Mail, iPhoto, and Keynote, among others.

Key Command Savviness

MacSpeech Dictate understands key commands. With the 'Press The Key' and 'Press The Key Combo' commands, you can enter specific keys and even keyboard modifiers like Command, Option, Shift, and Control. That makes you more productive and MacSpeech Dictate more intuitive. What could be better?
