

# PLANTRONICS .AUDIO™ 400 DSP

## Digitally-enhanced USB, stereo PC headset

Excellent stereo sound in a lightweight and comfortable headset. The Plantronics .Audio 400 DSP with noise-cancelling microphone is great for speech recognition, internet telephony, and video conferencing.

Digital Signal Processing (DSP) delivers up to 35% reduction in background noise and maintains crisp, clear voice transmission.

### Key features:

- **Monaural** – wear it on left or right side, for total comfort and to keep in touch with other sounds
- **Noise-cancelling microphone** – reduces background noise and ensures crystal clear audio quality
- **Easy to connect** – no software or drivers, simply plug in the 3.5mm jacks
- **Adjustable boom** – enables you to easily move the microphone to the ideal position
- **Vista compliant**
